Administrator report

06/15/2026

- Cyber training, we need to have the employees as well as the council members who missed taking training. I will set up a day and time at the Village Hall.
- Flags are repaired and installed. Will remain up until after Labor Day.
- Paint for the parking areas has arrived and painting will begin this week.
- Office window repaired and new drop box installed.
- A letter was sent too Two residents with the ordinance concerning chickens in the Village.
- Had to purchase new battery for small lawn tractor.
- Purchased back braces for the employees per their request for safety.
- I spoke with ODOT concerning paving State Route 162 in the Village, according to the engineer we are able to piggyback on their paving sometime in October. All the Village has to pay is for the asphalt.
- Spoke with county and the closing of New State Rd for dates requested has been approved even though they we not happy about it. Need to sign alternate routes if possible.
- Had to purchase new pole for street sign, 60.00 dollars and will be here this week.
- Flashing lights for signs have been ordered.
- A load of topsoil is needed to repair park after the swing installation. Who is going to purchase us or Community group, it was a result of their project.
- There were some unanticipated results of the recent Community group plan in the park. Nothing major or unfixable and over all excellent results. After speaking with the Mayor, The best idea we came up with is going forward the Community group could submit a plan of action for Council to approve so everyone is on the same page. I believe this is a reasonable request.
